The Spring Valley Water Com-  
pany's property in Alameda coun-  
ty is raised \$325,000.

The personal property assess-  
ment of Alameda county has been  
raised several million dollars.

County Assessor Dalton today turned  
over the assessment rolls of Ala-  
ameda County to the Board of Super-  
visors. The principal raise was made  
in the assessment of the Contra Costa  
Water Company, the raise being al-  
most \$2,000,000.

The assessment of all property in  
the city of Oakland was raised from  
\$44,456,665 to \$15,276,625, an increase  
of \$819,665.

The personal property in the city  
of Oakland was assessed this year at

## NINE MEN ARE KILLED.

Train Plunges Through a Bridge  
and Trainmen and Labor-  
ers Are Crushed.

CLEVELAND, Ohio, July 11.—Ac-  
cording to information given out this  
afternoon at the headquarters of the  
Nickel Plate road here, nine men were  
killed as the result of a collapse of  
a bridge at Springfield, Pa.; today,  
while a local freight train was passing  
over the structure. The bridge was  
being repaired. When the locomotive  
and the cars went down a gang of Ital-  
ian laborers working on the bridge  
were caught beneath the wreck. At  
least seven of the Italians were in-  
stantly killed and a number of others  
badly injured.

P. A. Moore, of Conneaut, the con-  
ductor, and Wm. Griffith of Buffalo,  
the engineer of the train, were also  
instantly killed. The bodies of the  
dead men have been taken to Con-  
neaut. The names of the dead and in-  
jured laborers have not yet been  
learned.

## MRS. BROWN DIED WHILE IN ITALY.

DETROIT, Mich., July 11.—General  
H. M. Duffield received a cablegram  
from Justice Brown of the Federal Su-  
preme Court announcing the death of  
Mrs. Brown in Italy. The cablegram  
was dated Nov. 11, in that country.  
Mrs. Brown had been an invalid for  
some years and the Justice sailed for  
Europe very soon after the decision  
in the Insular cases, which he handed  
down.

In addition to her husband, a coun-  
sin, Mrs. Tyler, widow of Lieutenant  
Commander Tyler, of the Navy, was  
with Mrs. Brown at the time of her  
death.

## GREAT STRIKE MAY SOON BE SETTLED

Committee Is Holding a Meeting  
and Will Decide on  
Details.

PITTSBURGH, Pa., July 11.—Surface  
indications point to the settlement of  
the strike in the mills of the Ameri-  
can Sheet Steel Company and the  
American Steel Hoop Company at the  
conference between the Amalgamated  
officials and the Steel Combine officials  
which started today in this city.  
The conference was called for 10  
o'clock this morning, an hour be-  
fore that time the National officials  
of the Advisory Board Trustees and  
District Vice President of the Amal-  
gamated Association met at their  
headquarters to outline their attitude  
before conferring with the representa-  
tives of the Steel combine.

Behind Closed Doors.  
At the preliminary conference the  
entire ground was gone over and the  
campaign of the day was mapped out.  
The meeting was behind closed doors  
but when the members of the Board  
filed out to join in the general confer-  
ence there was an air of confidence  
about them that presaged an early  
settlement and at terms they evidently  
believed would be satisfactory to the  
workmen. President Shaffer said that  
if an adjustment was not reached he  
favored a continuance of the confer-  
ence tomorrow and Saturday, but that  
the present conference must be final.  
Under no circumstances would he  
agree to a postponement for a week  
or more intervening between the meet-  
ings.

Mr. Shaffer said further that the  
Executive Committee was clothed

## LIEUTENANT IS PLACED ON TRIAL

Is Accused of Murdering a Fili-  
pino Who Was On  
the Run.

MANILA, July 11.—The trial of Lieut-  
enant Brown, of the Second Infantry,  
charged with murdering near Binangonan,  
Infanta Province, a native who  
was suspected of responsibility in the  
death of a soldier, began today. The  
soldier referred to was drowned while  
a detachment of infantry was swim-  
ming a river under fire.

The Lieutenant at the time of the oc-  
currence, questioned the native and  
the latter bolted, whereupon Brown  
shot him dead.

Captain Francis B. Fremont, also of  
the Second Infantry, is being tried for  
striking a soldier. The court has re-  
quested that Captain Wright, now in  
Washington, be ordered here to testi-  
fy.

As an outgrowth of the ill-feeling ex-  
isting in some quarters, it developed  
recently that H. P. Phelps Whit-  
marsh the Governor of Benguet (who  
has been ordered here to have charges  
against him investigated) had a phys-  
ical encounter with Secretary Otto  
Scherer of that province, who disap-  
proves of the Governor's administra-  
tion.

## DYNAMITE KILLS TWO, INJURES MANY

Men Were in the Magazine When  
the Immense Charge  
Went Off.

All the Windows in Neighborhood  
Smashed and People Were  
Knocked Down.

DENVER, Colo., July 11.—A mag-  
azine of dynamite located near the  
Grant smelter exploded this morning,  
killing two men and injuring several  
others. The dead are:  
DOMENICO MUTO,  
TON WEST.  
These two men were in the mag-  
azine getting a supply of dynamite to  
use for blasting when the explosion  
occurred.

They were blown to pieces and the  
fragments of the bodies strewn over  
the prairie for hundreds of yards.  
Other men working in the vicinity  
were thrown to the ground and stun-  
ned.

The damage is estimated at \$5,000.  
The killed and injured were employ-  
ed in preparing slag from the smelter  
to be used for ballasting on the Bur-  
lington and Missouri Railway.

The explosion is believed to have  
been caused by the terrific heat. All  
the windows in the neighborhood were  
smashed and the windows in the Union  
Stock Yards Bank, fully a quarter of a  
mile away, were shattered.

The increase of the assessment in  
the city was considerable of a sur-  
prise, as it was expected that the As-  
sessor would decrease it.

"I had no idea of a decrease," said he  
today, "but on the contrary I knew I  
would have to increase the assessment  
of Oakland, Berkeley, the Linda Vista  
district, the Contra Costa and Spring  
Valley Companies and a few others."

"The increase was made despite the  
fact that none of the churches were as-  
sessed this year."

"The increase in the county will be  
big, taken altogether. Last year the  
county was assessed at \$24,635,617, and  
this year it will reach between that fig-  
ure and \$30,000,000."

Assessor Dalton has until next Mon-  
day evening to complete the collection  
of personal property taxes.

## DEATH LIST HAS REACHED TWENTY MARK

Many of the Wounded in the Kan-  
sas Wreck Cannot  
Recover.

Victims of the Wreck Are in the  
Morgue and Many Are  
Identified.

KANSAS CITY, Mo., July 11.—Up to 11  
o'clock this morning two more victims of  
yesterday's collision on the Chicago and  
Alton Railway near Norton, Mo., had suc-  
cumbed to their injuries, making a total  
dead list of twenty. Mrs. J. D. Adist,  
wife of Dr. Adist of Hoopston, Ill., died  
at 5:30 this morning at St. Joseph's Hos-  
pital, and Mrs. Hilda Hayslip of Chicago  
died an hour later at the University Hos-  
pital.

Many Are Suffering.  
Leslie M. Colburn of Pawpaw, Mich.;  
Miss Lottie Stiles of Hornellsville, N. Y.,  
and Mrs. C. W. Snyder of Jasper, Ill., are  
in a very precarious condition and may  
die at any moment. Dr. Adist, Prof. S.  
A. D. Harry of Hoopston, Ill., and E. C.  
Bray of Chicago are still suffering in-  
tensely and their condition has not yet  
been definitely determined.

Most of the other injured are resting  
easily, but in the case of half a dozen  
other patients the outcome will not be  
known for twenty-four hours.

Fire Victims Unidentified.  
Five victims are unidentified. The first,  
supposed to be the daughter of Mrs. R.  
J. Curtis of Geneseo, N. Y., who was  
killed, was about 25 years of age. She  
had dark hair and brown eyes. The of-  
ficial to aid identification was a garter  
marked "California."

The second is believed to be a Mr. Jones  
of Chicago, aged 45 or 50 years, sandy  
mustache, light hair, weighing 200  
pounds.

The third is a woman about 50 years  
old, who died at St. Joseph's Hospital last  
night. She wore upper false teeth and  
had several holes on the neck and an-  
other on the hip.

The other two unidentified are men.  
The body of one is horribly mutilated,  
a arm and leg are missing and the shoul-  
ders and head are crushed. The victim  
had dark hair, blue eyes, gray mustache  
and was about 40 years of age. He was  
dressed poorly.

The fifth is also a man of about 40. He  
had blue eyes and light reddish hair.  
At the office of the superintendent of  
the Chicago and Alton in this city today  
it was stated that no additional bodies  
had been found in the wreck.

Two Are Identified.  
Later two of the dead were identified  
as Mabel Ross, Kentland, Ind., aged  
23, and Mrs. F. L. Ray, Wilmington,  
Ill., both en route to San Francisco.

## TO COMPROMISE WATER CASE.

Los Angeles City Council Submits  
a Plan to the Corpora-  
tion People.

LOS ANGELES, Cal., July 11.—The  
following proposition for the settle-  
ment of the water controversy be-  
tween the City of Los Angeles and the  
Los Angeles City Water Company,  
was adopted by the City Council today  
and submitted to the representatives  
of the Water Company:

"As servants of the people, and re-  
cognizing the great importance to the  
City of Los Angeles of ending all lit-  
igation between the Los Angeles City  
Water Company and the City of Los  
Angeles, and feeling that we should  
be remiss in the confidence and trust  
reposed in us as such, should we not  
use all honorable and proper means  
at our disposal to bring about such a  
much desired result and for the pur-  
pose of allowing the people to deter-  
mine the matter, we desire to say to  
you that, if your company will accept  
\$2,000,000 in full settlement of the  
above mentioned matters, upon the  
terms heretofore agreed to, we will  
submit the same to the people, believ-  
ing that the sum is the limit for which  
the people would stand irrespective of  
the legal rights of the parties inter-  
ested."

## FUNERAL OF PROF. LE CONTE HELD AT BERKELEY

Impressive Scene at Hearst Hall During the Public Services—  
Thousands of People Gather at the College—Many  
Handsome Floral Tributes — Son Not  
Heard From.

BERKELEY, July 11.—The funeral  
of the late Professor Joseph Le Conte  
took place this afternoon. The cere-  
monies were held in Hearst Hall.  
There was a throng in the auditorium  
of mourning. Grief was depicted on  
every face. Every person present felt  
in the loss which the University had  
experienced in the death of the Pro-  
fessor that he himself had sustained  
a personal bereavement. There was  
no thought of the future or who was  
to succeed to the position of the de-  
ceased. It was simply reflection of the  
past, the achievements and goodness  
of the man which occupied every  
mind.

There were thousands in the throng.  
They came from all parts of the State.  
In the social and professional sense  
they ranged from the struggling so-  
phomore who is working his way  
through the University to the graduate  
who has attained to wealth and dis-  
tinction in his chosen calling. No  
greater tribute could be imagined than  
the presence of this miscellaneous as-  
sembly. As if in appreciation of the  
ability of admirer and conferrer to do  
justice to the character and work of  
the dead man, eloquent tongues were  
silent. Ideas which struggled for  
the mastery could not be given ade-  
quate expression.

There was an eloquence in silence  
which had never been so appreciated  
before by even those who know how  
eloquent silence may often be. The  
decease was painful, the parting was  
inconceivable. Such a solemn occa-  
sion has never taken place in the his-  
tory of the University—in the history  
of the State. It will long be cher-  
ished by those who took part in it, and  
especially by those who like to im-  
prove the present with reminiscences  
of the past.

The men, and the women, too, who  
came to the platform, where he made a  
brief talk.

"All for one and one for all," he said,  
would be his sentiment as President of  
the Association.

The intense interest among educators  
on the subject of teaching economics in  
the public school systems of the coun-  
try, was reflected in the attendance  
upon this morning's session, which was  
devoted to it. Although the Light  
Guard Armory was very close when  
President Green called the session to  
order, there were 3,000 teachers pres-  
ent.

Talking extemporaneously, Prof.  
Vincent of the University of Chicago  
made a splendid and enthusiastically  
applauded address on "Social Science  
and the Curriculum."

"All subjects in the present cur-  
riculum," particularly literature, lend  
themselves to the social point of view,"  
said Professor Vincent, after acknowl-  
edging that he did not want another  
subject added to the curriculum.

Using apt illustrations he showed  
how all the present studies can be so  
realized. He also urged on the teach-  
ers the necessity and benefits of co-  
relation of the different studies.

Prof. F. W. Spiers of Philadelphia,  
spoke on "Ideals and Methods of Econ-  
omic Teaching." He emphasized the  
importance of economic training for

## THE STAND FOR NATIONAL UNIVERSITY

National Educators Again Reaf-  
firm in Favor of National  
Institution.

Three Thousand Teachers At-  
tend the Session This  
Morning.

DETROIT, Mich., July 11.—Despite  
strong opposition on the part of those  
opposed to a National University, the  
National Educational Association ac-  
cepted a resolution re-affirming its  
former declaration in favor of such a  
University. The resolution, which was  
offered by President Jesse, of the Uni-  
versity of Missouri, at the business  
session immediately following the  
morning meeting, read:

"Resolved, That this Association  
hereby re-affirms its former decla-  
ration in favor of the establishment of  
the National Government of a National  
University, devoted not to collegiate,  
but to true University work."

Dr. N. M. Butler, of New York,  
moved that it be laid on the table.  
This motion was voted down over-  
whelmingly and the original resolution  
adopted. The report of the Commit-  
tee on Nominations which named Dr.  
W. M. Beardshear of Iowa College, for  
president, and C. M. Keyes, of Har-  
ford, Connecticut, for treasurer, was  
adopted and Dr. Beardshear was led

came to mourn assembled first at the  
late home of the deceased, 2737 Ban-  
croft way. Thither the remains of  
the Professor had been borne yester-  
day.

Within the home, welcome as they  
would have been by those who loved  
the deceased, no one save a family  
connection and those in charge of the  
obsequies entered.

The family, aged widow and griev-  
ing daughter, were left alone to mourn  
in privacy over their dead.

The mourning was peculiarly poi-  
gnant because the son of the deceased  
was absent, toiling among the fast-  
nesses of the Sierras unacquainted with  
the irreparable bereavement which he  
had sustained.

There was no formality in the cor-  
tege. The remains were borne from  
the home, the casket being covered  
with roses.

The pall-bearers represented every  
part of the great University family as  
follows: William R. Davis and Chas.  
Wheeler for the alumni, Charles W.  
Slack and J. B. Reinsteil for the Re-  
gents, Professors A. C. Lawson and  
W. E. Ritter from Le Conte's own de-  
partment, Professors Martin Kellogg,  
Eugene W. Hilgard, George Davidson  
and Fred G. Hesse, as contemporary  
faculty fellows of the deceased, and  
Charles E. Fryer and John M. Eshel-  
mand of the student body.

Professors, graduates, male and fe-  
male, grown men and women, the Uni-  
versity people being signalled by the  
traditional cap and gown, formed in  
line and followed the hearse as it  
slowly proceeded toward Hearst Hall.

The interior of the structure was open  
to the community a few seats only  
being reserved for the family of the  
deceased.

Around the bier, was a wealth of  
floral garniture well nigh indescrib-  
able. The florist designer's originality  
had been taxed to the uttermost. It  
was the language of flowers telling of

## DRAGGED BY HAIR OF HER HEAD.

Golden Gate Society Has an In-  
teresting Day in the Po-  
lice Court.

The harrowing details of a hair-pulling and scratching match between two women, one of Danish extraction and the other of Scottish blood, were narrated in the Police Court this morning during the trial of Mrs. C. Venet, charged with having disturbed the peace of Mrs. Annie McDonald, her Scottish neighbor.

The court room was packed with the representatives of the combatants, who reside on Fifty-sixth street, in Golden Gate, one of the picturesque and thrifty burgs annexed to Oakland some time ago and still more recently adorned with some of the municipal ornaments, a full fledged fire department and police protection.

Mrs. Annie McDonald, the complaining witness, recited on the stand that she had never before had any trouble with her Danish neighbor. She admitted that she had narrowed down her neighbor's "once, when she insisted on me taking the money." Everything had been harmonious until the other morning, when witness was on the sidewalk in front of her home, and when Mrs. Venet claimed some grievance. Then it was that Mrs. Venet came at her and began pulling witness' black tresses and scratching her face. These were the facts on which Mrs. McDonald based her complaint. Her testimony was corroborated by her infant daughter, who said she "did not know what becomes of little girls who fail to tell the truth."

But it was when Mrs. Venet took the stand in her own behalf that the most harrowing tale of the day of battle was brought out forcibly.

"I was sweeping my sidewalk front of my house," began Mrs. Venet, the defendant, "and bannay du Mrs. Maik donell came and trowed her paper lock on de sidewalk what aye ban sweep. So I toln have you let it alone." But just dan she ban come at meself and pull my hair down and drag me twenty five feet in de middle of de shreet. Aye holler voice of relief for Mrs. Nelson, but I guess she don't hear me. But Mrs. Maik donell say to me 'now you get it good, eh?' Yes, she drag me and my feet on the sidewalk off de ground. No, I did not venter hurt Mrs. Maikdonell. Of coss I ban pretty strong myself and I could do her up pretty quick ef yae want to."

Mrs. Jane Nelson, the next witness, testified that she had not heard Mrs. Venet calling to her, "but ef yae did I would run to hare pretty quick myself, becoss aye know Mrs. Maikdonell's reputation, vot ol de neighbors say, is not good. De neighbors vot talk about dis Mrs. Maikdonell, Mrs. Venet, Mrs. Harms and Mrs. Brannan."

"Is this Mrs. Brannan the wife of Pa-liceman Brannan?" asked Prosecutor Leach on cross-examination, but witness "vos not sure of dis."

Mrs. Henrietta Peterson of "Sixty-four" street, testified as did also Mrs. Mary E. Fowler, that she knew nothing about the reputation of neither Mrs. McDonald nor Mrs. Venet, "who be a pretty good lady."

This concluded the testimony, and Police Judge Smith, after advising both parties that if they insist on bringing their troubles into court it must turn out an expensive method, and after admonishing Mrs. Venet to leave her neighbor alone, suspended sentence in the case.

**THE DEPRESSION IN OIL.**

There is no longer any necessity for concealing the fact that the oil industry of California is experiencing the set-back that invariably follows over-booming. No mishaps have occurred to the production itself, for the number of petroleum-yielding wells is fully up to the highest expectations, nor is the quality of the oil worse than anticipated or the question of transportation different to what was expected.

Where the troubles exist are that the demand is not equal to the supply, that the operating companies are, as a rule, over-capitalized, and so many wildcat ventures were floated that the hour has come when the chaff must be separated from the wheat. As soon as these conditions are met and remedied everything will pursue a tenor more even and more permanent than before and our new industry will be in a business-like shape and capable of running indefinitely.

When the boom started up a couple of years or so ago "dollar oil" was the order of things. The supply was limited to the Ventura fields and importations from the East, so the petroleum business commenced upon the top rung of the ladder and had to travel downwards instead of in the direction that brings success. The vast profits in sight brought about such a rush to the Kern and McKittrick districts that the supply was doubled and tripled in almost the twinkling of an eye, and as the demand had not traveled correspondingly the inevitable result was an over supply and a falling of prices until they reached the present bedrock quotation of twenty-five cents a barrel. The capital stock of the scores of companies doing business meanwhile advanced far into the millions, and now, even eliminating the wildcat companies, which are fast going to pieces, it is impossible to conduct matters upon the lines of the original inflated values. As the oil industry is a stable one, however, the depression now existing cannot long continue, and when the adjustment of prices and supply and demand is obtained the business will settle down into healthy and established lines that will mean far more to the State than the agitation of boom times.

The managers of the Western railroads that have entered into the new business agreement announce that they have not formed a money pool but a physical one. Yes, and the public will have to take the medicine.

San Jose's weather bureau is to be put in operation in a few days. Now, when the rainy season starts up, the residents of the Garden City will not only be notified to keep in out of the sun, but will get a straight tip when the showers can be expected.

**A PROPER PROCEEDING.**  
The long existing differences between the municipality of San Francisco and the Spring Valley Water Company have at length been taken into the United States Circuit Court for adjudication. This seems to be an entirely proper proceeding. No other tribunal could afford a fairer arbitration of the controversy. The Circuit Court is entirely divested of any bias in the matter and cannot be swayed by any of the influences which too often affect the decisions of elective Judges. As the Federal Judge holds his position for life he is independent of those considerations of personal welfare which insistently appeal to weak human nature on the bench as well as off it. Popular feeling nor the pressure of a powerful corporation is likely to influence his view of the law in the case.

For many years the difference between the municipality and the water company have been a sore spot in local politics. Time and time again has the whole question of municipal policy been made to turn upon water rates. It was an issue that incubated all other issues and embarrassed every proposition of local government. With a great body of people the paramount test of a man's qualification for office was his attitude toward the water company. This artificial standard of fitness clouded all other issues and chained discussion to a stake.

It is high time the irritating contention were abated and the rights and wrongs of it authoritatively determined. No determination could be had without an appeal to a tribunal having the power to enforce its edicts and the independence to consider impartially the points of difference. A controversy of this character had better always be left to the courts for settlement. It cannot be settled by any other authority, for what one City Council or Board of Supervisors may do another succeeding body may as readily undo. So the matter is buffeted about the field of municipal politics, while the gravest questions of public policy are subordinated to the momentary popular feeling on the subject of water rates. The struggle is premised on the following condition: The ratepayers want to get their water at as low a price as possible, while the stockholders of the water company desire to get as large a return as they can on their investment; but the water buyers have the legal power to fix the rates which they will pay to the sellers. A chronic dispute naturally results, and the only sensible way to settle it is to have some court of competent jurisdiction to decide.

1. What is the value of the property used in supplying water?
2. What is a fair return on the value of such property?

On the whole it seems wise to have the United States Circuit Court to pass upon these two salient points of the perpetual water squabble. Certainly no reasonable objection can be made to such an adjudication.

It would be interesting to know what sort of a begging letter mail Carnegie receives daily. His public benefactions of about \$50,000,000, and his announcement that he intends to give away about \$50,000,000 more must have put the epistolary gold brick operators on their mettle. Judging by his methods, however, about the only thing they will be able to get free from him will be a little hot Scotch.

The average length of life is said to be increasing. No wonder the undertakers have formed a trust—they have got to do something to get their business back.

All the champion pugilists are going in for the wrestling game. They probably got the idea from the case with which they threw down the public as regards their ring contests.

**GOV. GAGE WANTS INVESTIGATION.**  
Writes an Interesting Letter to the President of the Blind Home.

George W. Reed Replies That He Has Placed Matter Before the Officials.

The following correspondence between Governor Gage and George W. Reed is interesting:  
"Sacramento, June 30, 1901. Hon. George W. Reed, president, and to the board of directors, Institution for the Deaf and Dumb and Blind at Berkeley—  
Gentlemen: Some time ago having had a verbal report from one of your members in reference to the subject of this communication, and having since then examined with very great care all of the testimony and proceedings relative to the sad death of the little boy, Wirt Allen, who died on June 8, 1901, of burns received at the institution (see pages 35, 22, 36, inquest), and having found the information given me by said member of your board in exact accord with the written record of the proceedings now before me; and while this record discloses the fact that your board is entirely blameless in the premises, not having had anything whatever to do with the employment of the attendant Hoffman (page 32, test, inquest) who had charge of the child at the time of the unfortunate occurrence (page 22 inquest), and that Hoffman was temporarily employed by others after having been duly recommended to them as a proper person for this work (page 22) during a time of great urgency while an epidemic of smallpox was raging among the children of the home (see page 32, inquest); still having in view all of the facts and circumstances, I deem it best to respectfully call your attention to the following legal proposition, possibly having some bearing upon the question under consideration:

"Manslaughter is the unlawful killing of a human being without malice (and is punishable by imprisonment in the State prison not exceeding ten years). There are two kinds of manslaughter, one of which is known as involuntary manslaughter. This form of manslaughter may be perpetrated in the commission of a lawful act which might produce death without due caution and circumspection. (See sec. 192, Penal Code.)  
"Involuntary manslaughter is where death results unintentionally, so far as the defendant is concerned, from a lawful act negligently performed."  
"The coroner's jury in this case find that the death of the child 'was due to the culpable carelessness of W. F. Hoffman in setting fire to alcohol dripping upon the floor of the room where in said deceased was being bathed.' (See verdict, page 49, of inquest.)  
"Not desiring to prejudice the matter in any way, but in view of this verdict, and in view of the testimony introduced, I deem it my duty to suggest that the board of directors at a suitable time confer with the District Attorney of Alameda county relative to this subject in order that full justice may be done in the premises. Respectfully yours,

"HENRY T. GAGE."  
Geo. W. Reed's Reply.

"Oakland, Cal., July 5, 1901. Hon. Henry T. Gage, Governor of California—Dear Sir: Your letter of June 30 last relative to the death of the little boy Wirt Allen at the Institution for the Deaf and Dumb and Blind at Berkeley came duly to hand. Your letter is addressed to myself or Senator Leavitt and to the board of directors of the institution. Senator Leavitt is out of town, and the board will not hold another meeting until about August 1, so I have taken the liberty of complying with your request as stated in your letter, and also of answering the same. At the time of occurrence, on behalf of our board, I did consult with our District Attorney, J. J. Allen, and laid the facts before him. Up to the present time no one has come forward to swear to a complaint against Hoffman. The boy's father was here at the coroner's inquest, but he did not seem disposed to take any proceedings in the matter, and I doubt if any one will swear to a complaint.  
"On receipt of your letter, I once called upon the District Attorney and showed him the letter, and after consultation we concluded to bring the whole matter to the attention of the Grand Jury, which will meet the first part of August next. We will co-operate in every way with the District Attorney, so that all the facts may be fully presented to the Grand Jury. We hope this course will meet with your approval. If not, please advise us further, and we will endeavor in every way to carry out any further suggestions you may be pleased to make. Yours truly,

"GEORGE W. REED,"  
President Board of Directors."

**ROLLING MILL IS STILL CLOSED DOWN.**  
The rolling mill at the Judson Iron Works has not reopened, though it was announced it would do business last Monday. The mechanics, out of sympathy for the striking machinists, refuse to return to work, and at present, besides twelve bridge makers, there are only 100 day laborers employed and these are handling scrap.

**DEFAULTING WITNESS ARRESTED ON ATTACHMENT.**

Because Mrs. Louise Lathrop, who had preferred a charge of battery against her husband, Jean Lathrop, failed to appear in the Police Court yesterday an attachment was issued for her and the case continued till tomorrow. Late in the afternoon Mrs. Lathrop was arrested, but was immediately released on furnishing \$25 cash bail.

**WORKING ON TIDAL CANAL.**  
Contractors Are Planning to Dispose of a Great Amount of Dirt.

Preparatory work has been begun for the dredging of the tidal canal which is to connect the bay of San Leandro and the Bay of San Francisco by means of Oakland Harbor. This work is one of unusual magnitude and exceeding interest because thousands of cubic yards of material must be removed, and, at the same time, a long-existing nuisance at Park street, it is expected, will be abated.

When active dredging work will begin is not known. This will depend upon the other engagements of the Atlantic, Gulf and Pacific Dredging Company, to whom the contract for digging the canal has been let.  
The material to be removed forms a neck of land extending from a short distance west of High street bridge to a short distance east of Fruitvale avenue bridge. This neck was left several years ago when the appropriation of the Federal Government was exhausted and the project of a tidal canal was abandoned. At that time a channel had been dug up to the points specified above, giving a waterway of about 300 feet in width. The abandonment of the canal project on the west end is shown by a number of dump cars and steam shovels which have never been utilized since the closing up of the work.

Evidences of this kind, however, are not to be found on the eastern extremity of the enterprise. These cars and shovels are the property, by the way, of the firm which has now secured the contract for the completion of the work. They will, of course, be used in carrying out the project.  
In the furtherance of the scheme the disposal of the material dredged is an interesting problem. In a manner, on the last end of the work, this problem has been solved, because there are lands adjacent on which the dredged material may be deposited without much effort and which will thus be reclaimed from low marshy ground seamed and scoured by the innumerable arms of the bay. The owners of this land are anxious to have it improved and have agreed to pay the dredging company liberally for the debris, a circumstance which will increase the revenue from the contracting price, and, at the same time, save the dredging company from the necessity of carrying off the material on the cars. On the west end of the canal, however, this state of affairs does not exist because the adjacent land is not of a marshy character, requires no filling and would not be otherwise than injured by having dredged earth deposited upon it. The disposal of the material on the west end of the project is now being discussed and some time may elapse before it may be settled satisfactorily.

On the east end there is a force of fifty men employed under Gus Wilbeck as foreman throwing up a clay embankment on the edge of an irregular area comprising about 100 acres. This area is owned by several private individuals, among them Mrs. Tibbys, Mrs. Clark, Mrs. Simson and others.  
The first work on the embankment was done on a point at the intersection of San Leandro bay and the connecting part of the tidal canal. It runs thence to Clark street in Melrose, a distance of about 3,000 feet. This embankment is the highest which will be built. It is ten feet wide at the base and five feet at the summit. The line then runs west on Clark street for a distance of about 500 feet. It takes an irregular course along the outer line of various properties and there ends, pending the securing of permission of the owners of the land, now in abeyance, for the deposition of material. When this permission has been obtained the line will extend to High street, along which it will run south to the canal, a distance of about 1,000 feet. The workmen now employed on the job are building an embankment easterly along the canal, which a base of seven feet with a summit of three and one-half feet. This work will be completed in a few days, after which the men will be laid off, pending the beginning of the dredging, which will hang upon the freedom of the company's dredger, which is at present, and which for some time, will be engaged in the vicinity of Vallejo.

It will be seen that Congressman Metcalf's promises to the people of Alameda concerning the tidal canal are being fulfilled.

**"OUCH!"**

That is about the mildest form of outcry a man makes when rheumatism suddenly twinges him. In its worst form rheumatism is a living death. The victim, incapable of moving hand or foot, has no part in the game of life, on which he gazes with hopeless eyes. A great many sufferers from rheumatism, who have given up hope, have been cured by the use of Dr. Pierce's Golden Medical Discovery. A medicine which will cleanse the blood from uric acid and other poisons, will cure rheumatism. "Golden Medical Discovery" has no equal in its power to cleanse the blood and to enrich it. "Discovery" contains neither alcohol nor narcotics.  
"I had been troubled with rheumatism for twelve years," writes Mr. R. J. McKnight, of Wadsworth, N. Y. "I could not move, and I was badly crippled. Tried many doctors and two of them gave me up. One of them said, 'You are a goner.' The pain in my back, hips and legs (and at times in my head) would nearly kill me. My appetite was gone, and I could not eat. I took five bottles of 'Golden Medical Discovery,' and four vials of 'Pain-Expeller,' and today my back is as good as new, and I am suffering twelve years with rheumatism."

where his family will remain for some weeks.  
Mrs. C. M. Hill and Miss Amy Hill are spending the summer at Los Gatos.  
The Rev. Charles R. Hobart, formerly pastor of the First Baptist Church here, but now of Pasadena, is the guest of Mrs. Matilda Brown on Celestina avenue. After spending a few days here he will leave for a camping trip to Big Meadows, accompanied by the Rev. C. M. Hill and son and John G. Hoyt.

A number of Oakland people are helping to make Camp Reverie, by reason of its charming inhabitants, one of the most delightful and popular of summer resorts. R. L. Hill, M. D. and wife, and W. H. Henderson and wife with their kodaks, are making the most of the many pretty views to be found in the Camp and its environs. By the way, I have it on good authority that the Camp is to be furnished with a dark room for the use of its guests who are devoted to photography. Dr. Hill is fast regaining the health he came to seek.  
Mr. C. A. Fuller and family of Oakland and Mrs. C. A. Fuller and family are enjoying to the full the many beautiful walks in the neighborhood and is not phased in the least by a walk to Guerneville and back—a distance of eighteen miles.  
Miss Edna Prather has just returned after a visit of one week, carrying with her the hearts of all the young people and the photographs of all the distinguished guests in the grove.  
Jack London and wife and the beautiful Baby Joan, the belle of Camp Reverie, returned on Monday after a three weeks' visit, followed by the sincere regret of their many friends on the grounds. The speaker of the week, Austin Lewis, may also be claimed by Oakland, although living in Lorin, the debatable grounds between Oakland and Berkeley. Mr. Lewis' three addresses, "On the Great Subject of 'Convention and Conflict, A Study of Emotion Revolt During the Victorian Epoch,' 'The Revolt of the Artist,' and 'The Revolt of the Artist,' were listened to by fascinated audiences. Mr. Lewis is not only master of his subject and of all subjects connected with a philosophical study of literature and history, but he is also distinguished as a speaker with rare gifts of eloquence and voice which make it a treat to listen to him at all times, whether on or off the platform. Mr. Lewis is accompanied by his wife and three little ones. They will remain for a few weeks. Master Saxon, a sturdy little chap of three summers with marked individuality, rejoicing under the euphonious name of 'Rags, Bottles and Sacks,' bids fair to take Joan London's place as the "Camp Baby," a title by the way which that doughty little chap would reject with scorn.  
Mrs. W. E. Montgomery and Master Stuart Vernon Irvine are staying at the Camp. Mr. and Mrs. W. E. Montgomery paid us a passing visit on their way through Sonoma county a-wheel. "Young Mrs. Winthrop, Bronson Howard's popular play, will be presented on Saturday night by the Sigma Beta Dramatic Club, well-known young society people of San Francisco, Oakland, and Berkeley. They bring their own stage setting and orchestra. Miss Lurline Lyons, a niece of Mrs. Nettie Eames, the Camp Hostess, is leading lady and Mr. Rogers leading man. When this play was given at Sherman Clay Hall in San Francisco, the Dramatic Review said of their rendering of it that they put to shame any of the road companies.

Mr. and Mrs. Jos. Ghiradelli and two children have returned after spending two months in Southern California and Santa Clara county.

## F. M. CAMPBELL FOR PROF. POND.

Says That the Board of Education Has Done the Right Thing.

A Few Suggestions That Hit President Wheeler of the University.

Fred M. Campbell was seen by a TRIBUNE reporter today and in speaking of the election of Professor James H. Pond as High School principal said:

"I am well pleased with the selection of the principal of the High School made by the Board of Education and believe that time will fully establish its wisdom. I am not at all in sympathy with that sentiment which would always direct a search among graduates of Eastern institutions for candidates to fill honorable positions in California. It is perhaps not strange that to President Wheeler of our State University should immediately occur the names of Eastern people in such connection, but it must be remembered that while he is new to our State, the University of California is not new, but on the contrary has been graduating students for nearly a third of a century, but his acquaintance with graduates of Eastern institutions is necessarily much more intimate than with graduates of the institution over which he presides.

"Pond fills all the conditions required. Comparatively young, full of energy, enthusiastic, scholarly, and with a record of successful experience of many years in a similar position in a neighboring city, familiar with our local conditions, habits, customs, he did not have to be taken on trust, as would any one brought from a distant State solely upon the recommendations of strangers to us, and strangers also to those special needs and conditions. I am thoroughly well satisfied."

## SEVEN MEN GUARD BANDITS.

Great Northern Express Robbers Are Said to Be in a Trap.

HELENA, Mont., July 11.—Reports have reached here that the Great Northern Express robbers have been surrounded at People's Creek, south of the Little Rockies, with seven men guarding them, awaiting the arrival of Sheriff Griffith, who will leave Malta with a posse of forty men this afternoon.

It is known that the robbers crossed the Missouri River not far from Peck Agency, Mont., Monday evening, and that they were riding fresh horses, secured either from relays provided in advance, or by theft from the ranges which they passed.

From the vicinity of the Belknap Agency they headed south and are in a section of country where they can make good time, but still not far from the security of the mountains. This information would seem to indicate that the robbers have some other haven in sight than the "Hole in the Wall" country, having gotten far east of that section.

Sheriff Benner of Great Falls, has also organized a posse to assist Sheriff Griffith, who left Great Falls this morning and an expert rifle shots and horseman.

## NEWS NOTES FROM THE SUPERIOR COURT.

Alfred E. Bennett has filed an additional bond of \$300 as guardian of the person and estate of Percy Harold Metcalf, a minor. His sureties are Congressman W. H. Metcalf and Robert Dzelic. The word is about to receive \$1,932 from the estate of William Metcalf.

Matthew Casny has been served with a summons to answer the suit for divorce brought by his wife, Anna Casey.

D. H. Frye has been appointed guardian of the persons and estates of Edgar L. and Mita H. McVean, minors, with bonds fixed at \$25 for each ward. Frye is the stepfather of the children, who are 20 and 17 years of age respectively. Their estates consist of \$25 each.

The heirs of Frank D. Cuniff, deceased, have been granted fifteen days' additional time to prepare proposed amendments to the bill of exceptions submitted by the executor of Rosa F. Cuniff's estate in the appeal of her suit to recover part of the estate, as widow of the deceased. The court held that Rosa F. Cuniff was not the widow of the deceased. Since then she has died.

Katharina Bleier has been granted letters of administration over the person and estate of Ida Bleier, a minor, with bond fixed at \$1,125.

The final account of John H. Roden, as administrator of the estate of N. W. Winston, deceased, shows no funds received and \$60 expended. Roden asks for his discharge.

## EARL ROSEBERY WILL MARRY.

Duchess of Albany Will be the Bride of the English Statesman.

NEW YORK, July 11.—A London dispatch to the World relative to the reported betrothal of the Duchess of Albany to the Earl of Rosebery says:

"The announcement was not unexpected. The widowed duchess and the bereaved Earl would have been married long ago had not the Queen declined to countenance the union. So strongly did her majesty insist that in the seventeen years that have lapsed since the death of Prince Leopold, Duke of Albany, the Duchess has avoided society and devoted her life to the rearing of her son and daughter. She invented a peculiarly shaped school seat, for which she received a gold medal, and which is now in general use.

In the midst of her studies, her schemes for charity and social reforms she became interested in the Earl. She made a mild attempt to win the Queen over to consent to their marriage. The Queen would not hear of it, and as the Duchess was dependent upon an allowance made through her mother-in-law's will and did not wish to offend her, she resigned herself to the inevitable.

All is easy now, as the Prince of Wales, the present King, was always on terms of closest intimacy with the Earl of Rosebery. Within the last few days the King has had a long interview with the Earl.

### TAX ON HUTCHINSON

#### ESTATE IS REDUCED.

Attorney Asa V. Mendenhall this morning succeeded in securing a reduction of \$550 in the collateral inheritance tax to be paid from the estate of the late Elizabeth L. Hutchinson.

Mrs. Hutchinson died about three years ago, leaving an estate valued at \$101,000. By her will she left specific legacies amounting to \$52,774.41. The collateral inheritance tax on these bequests was appraised by Frederick E. Whitman at \$2,638.18. Owing to some controversies among the heirs as to the distribution of the estate, the payment of the legacies was delayed. The law provides that if inheritance taxes are not paid within eighteen months after the death of a person, a penalty of 10 per cent is added. This penalty was added to the tax on the legacies left by Mrs. Hutchinson.

Attorney Mendenhall showed this morning that there was an unavoidable delay owing to the controversies among the heirs. On this showing the court reduced the penalty about \$550, taking off all penalty for the first eighteen months subsequent to Mrs. Hutchinson's death and reducing the interest to 7 per cent of the subsequent time. This leaves the total tax about \$3,000.

About 40 per cent of the specific legacies have been paid through two decrees of partial distribution. The legacies are as follows: To Annie R. Elliott, \$1,441.66; to Bessie R. Elliott, \$13,000; Lulu Gordon, \$6,666.66; Abbie Sanborn, \$2,000; Edgar Sanborn, \$3,333.33; Edith Ireland, Minnie McGowan, Nellie Sanborn and Lizzie Sanborn, \$666.66 each; Lizzie J. McGarvey, \$1,666.66; Jessie Hutchinson, Annie Hutchinson; Helen M. Rowell, David Tisch, Clara J. Huggins, Kate, Alexander and Lizzie C. Betancue, \$666.66 each; Mrs. Emma Aiken, \$1,333.33.

## LODGE NEWS OF THE WEEK.

New Officers Take Their Places  
—Charles E. Snook to Deliver a Lecture.

The regular weekly meeting of Pacific Lodge, No. 1, takes place this evening at A. O. U. W. Hall, 100 Broadway, when the officers for the ensuing term will be installed by acting Deputy Grand Master J. A. C. Macdonald, who takes the place of Deputy Grand Master E. W. Alston, who is too ill to do the work.

Next Thursday evening, July 12th, Past Grand Master Chas. E. Snook will deliver an address in Pacific Lodge on "Men and Measures of the Supreme Lodge." Brother Snook has returned from Buffalo, N. Y., where the session of the Supreme Lodge was held last month, and there is no doubt but that his remarks will be full of interest. Members of the order generally are invited.

Freeman Henry P. Coyle, who was seriously injured in the railroad wreck near Santa Cruz a few weeks ago, and who is an old member of Pacific Lodge, is recovering rapidly. Brother Coyle says he is still in the ring and hopes to be running engines over the grade again before many weeks.

Receiver Fennell and Recorder Gilmore of Pacific Lodge leave next week on their vacations and it is said that there is likely to be a scarcity of "hot air" in the lodge room during their absence.

Past Master McKown has just returned from a camping trip and has some very thrilling adventures to relate.

**Young Men's Institute.**  
Oakland Council No. 6 will hold a regular meeting and installation of officers this evening.

The officers of No. 8, to reciprocate for the honor bestowed upon them, will tender the council a sumptuous banquet on installation night, Monday, July 29, 1901.

California Council No. 34 will give an installation social at Lafayette Hall, Alameda, on Thursday evening, July 12th. A good time is promised by the entertainment committee. All members of the Institute are invited.

The social event of the year will be the Cathedral Council's series of progressive euchre parties. Arrangements have been made to allow 400 at play. The first of the series will be held on August 9th, at Golden Gate Hall, Sutter street, San Francisco.

Council No. 6 will be well represented at the next session of the Grand Council to be held in San Francisco in August, by Past Grand President John Lynch, Grand Director A. D. McKinnon, and two delegates—Rev. Dr. F. N. Morrison and W. V. Harrington. As a result of a little "rustling" by a few members, the annual report of Oakland Council will show 96 per cent of its membership in good standing, with the finances in a healthy condition.

Council No. 8's representatives at the next Grand Council will be J. J. Burke and J. F. Kennedy; alternates, M. R. Bronner and George McCarthy.

**Companions of the Forest.**  
Pride of the Forest Circle No. 122, C. O. F., did not meet last Thursday evening as it was the Fourth of July, but will meet this evening. It is hoped all members will be present as installation of officers will take place. Pride of the Forest Circle will give an entertainment and dance on the 15th of July. All are welcome and a good time is assured.

**Catholic Ladies' Aid Society.**  
The Catholic Ladies' Aid Society picnic on July 3 was thoroughly enjoyed by all who were fortunate enough to attend. It was especially arranged as an outing for members and their children and although there were no races or prizes given all the guests were perfectly happy and unanimous in their opinion that it was a most delightful reunion of C. L. A. S. No. 1.

**United Artisans.**  
Last Monday evening was installation night for Golden Gate Assembly No. 62, United Artisans. The business of the meeting was rushed through and then the Assembly was taken in charge by Brother D. M. Atwater, pastmaster Artisan, who did the installing. The work was conducted in a very able and interesting manner.

The installation was followed by a daily spread in the banquet hall, which had been provided by the social committee, and it is needless to say that a very enjoyable hour was spent there. The following are the officers installed: Pastmaster Artisan, Mary Turnauken; Master Artisan, Augustus Kempke; Superintendent, Ella Atwater; Inspector, Bertha Pickett; Secretary, E. G. Miller; Treasurer, Mary E. Dealing; Junior Conductor, Catherine Kempke; Instructor, Milly Bonis.

**Sons of St. George.**  
Albion Lodge is booming. Its worthy president, J. A. Barlow, has set things a humming with his generous offer of a \$50 picture of King Edward VII as a prize and inducement for the bringing in of new members.

Tomorrow night the lodge will take action on the proposed amendments to the by-laws, at which every brother is urgently requested to be present.

Next Wednesday a banquet will be tendered to the representatives of the lodge and feels highly flattered in the Galindo Hotel by the two lodges of Oakland and Alameda. In the preparation of this event the committee has spared neither trouble nor expense and feels highly flattered in having secured such a good array of speakers and artists.

The Grand Lodge will hold a two days' session in Oakland, beginning next Tuesday, at which matters of great importance will be considered.

**Knights of Pythias.**  
The result of the work of the officers and members of Piedmont Lodge for the ensuing term will no doubt be a flattering one.

The term was opened with one application for membership and there are others to be heard from.

Visitors are always welcome and Piedmont Lodge would be pleased to add the names of all visiting Knights to its visitors' roster.

**United Workmen.**  
Oak Leaf Lodge, No. 35, A. O. U. W., had a very large attendance at its meeting Monday evening.

At the request of the Finance Committee the installation of the newly elected officers was postponed until the next meeting.

Supreme Lodge Representative D. S. Hirschberg gave an elaborate and highly interesting description of his visit to the lodge and the doings at the Supreme Lodge Convention. Past Master Workman Gibson gave a very instructive and eloquent address upon the idealistic view of "Unitarianism." Master Workman-elect Andrews gave one of his usual original and highly interesting talks in which he aimed to improve the condition of mankind. Past Master Workman Cogan gave the committee to visit the sick a good lecture upon their duties in reference to visiting sick brothers. The following brothers were appointed on the Extension Committee for the ensuing term: F. N. Morrison, W. V. Harrington, L. S. Hirschberg, W. A. Anderson, J. N. Johnson, M. Isaacs and James Andrews.

By a unanimous vote ten tickets were purchased for the ball to be given by California Lodge, No. 1, A. O. U. W., on Tuesday evening, July 30th.

Just before lodge closed Brother Hirschberg, on behalf of Oak Leaf Lodge, No. 35, presented a beautiful arm chair to Brother Cogan as a token of the estimation in which he is held by his brother members for his many good qualities, both as a man and a true Workman.

In a well chosen words Past Master Workman Cogan expressed his heartfelt appreciation for the handsome gift.

Past Master McKown has just returned from a camping trip and has some very thrilling adventures to relate.

I. O. O. F., held its regular meeting at its new home in Elks' Hall, and many were in attendance to witness the installation of officers.

**PROF. POND PREPARES TO COME TO OAKLAND.**

The Sacramento Bee of July 3 says: "At a meeting of the Board of Education of Oakland last night Professor James H. Pond of Sacramento was chosen principal of the Oakland High school."

Before his departure for San Francisco the other day Professor Pond applied for and received permission from the local Board of Education to accept the new position. He has evidently, therefore, accepted it, and will shortly enter upon his new duties.

The Oakland position is understood to pay \$3,000 yearly. The salary of principal of the Sacramento High school is \$250 per month for ten months of the year, making the yearly salary \$2,500 per year.

The Sacramento Board of Education will meet on Thursday night next, and it is not improbable that steps will be taken then toward the choice of Professor Pond's successor.

Among the candidates for principal of the Sacramento High school are Mr. Pond's assistant, Frank Tate, and E. T. Davidson, principal of the San Diego High school. Although neither has put in a formal application for the place, friends of each have spoken to members of the board relative to the claims of their choice.

Professor Pond announced, before leaving the city, that he would remain here long enough to enable his successor to become thoroughly familiar with the details of the position.

**Homestead Declared.**  
Elena E. Rodifer has filed a declaration of homestead on lots 276 to 281, map of Madison Square, Elmhurst. The property is valued at \$4,000.

**Building Accepted.**  
Harold L. Martin has filed a notice of acceptance of his new building at Twenty-third street and Telegraph avenue.

**Furniture Mortgaged.**  
G. W. and M. Miller have mortgaged their furniture at 1524 San Pablo avenue to Josiah Garratt for \$100.

**"THE PAY TRAIN" IS DRAWING GOOD HOUSES.**

A more realistic drama than "The Pay Train," which is now running at the Theatre, was probably never staged in an American playhouse. There is a thrilling train wreck and better explosion during the progress of the play, and the acting of Landers Stevens and his clever company is unusually good. Large houses attend the performances nightly.

**Harbor Notes.**  
The steam schooner Gualala was launched last evening at 7 o'clock at Dickey's shipyards on the south side of Oakland harbor. The ceremonies were quite simple, consisting of the breaking of a bottle of California wine on her bow by Miss Genereaux, daughter of Captain Genereaux, who will be in command of the new vessel.

It was at first thought that the Gualala would be compelled to lie in the stream, like her companion vessel, the Redwood, until after the machinery was struck, owing to the fact that they could not secure her machinery, but her owners solved the problem by purchasing the disabled steam schooner Laguna. The Gualala today and the boilers and engines of the Laguna will be transferred to her. It is expected that she will be ready to leave upon her maiden voyage to Puget Sound for a cargo of lumber by the end of next week.

The Gualala was built for the coast lumber trade for A. W. Beadle & Co. of San Francisco. She is rather a small steam schooner, being only 125 feet long, with a 30-foot-beam and a 9-foot depth of hold.

Fifty men have been started to work to build a dam just above the High street bridge, as preliminary work on the tidal canal. The dam is necessary to keep the waters from the partially constructed canal from impeding the work. The actual work of digging the canal will not be started until the dam is completed.

It is estimated that the force of men will be increased to 250 when the digging begins. They will work in night and day shifts, so as to avoid any delay, the contractors, the San Francisco Bridge Company, being under bonds to remove 100,000 cubic yards of earth a month.

The earth removed will be taken by the Southern Pacific Company to be used in the fill at West Oakland.

The schooner Marion has finished discharging her cargo at the Puget Sound wharf.

The schooner Broadwater docked at the city's Grove street wharf yesterday and will discharge 80 bales of flax, consigned to the California Flax Mills.

## PENSION FOR J. A. FILLMORE.

Popular Railroad Man Will Receive \$500 a Month as Long as He Lives.

J. A. Fillmore will be paid \$1,000 by the Southern Pacific, a month until the end of the year, and after that \$500 a month as long as he lives, says the Examiner. The corporation gives him a pension because of his long and meritorious service. This is the arrangement to which he spoke of his resignation.

This information comes neither from Mr. Fillmore nor President Hays, but it is true, nevertheless, and it puts his resignation in a wholly new light. The handsome provision made for him by the corporation shows how highly he was regarded by his employers.

As the story runs, Edwin Hawley, John W. Mackay and other friends in the Southern Pacific directorate regretted Hays' decision to supplant Fillmore, while at the same time they admitted the justice of his wish to place some of his own men in important subordinate positions. Therefore they made no effort to change the plan to which Hays had committed himself, but when the president suggested that it would be proper for the company to do something substantial for Mr. Fillmore on his retirement they willingly agreed. It is said that Hays proposed the pension and Harriman finally approved.

Mr. Fillmore's plans for the future are not known, but should he decide to engage in active work that will not affect his pension. Some of his friends have asked him to come on to New York. It is quite possible he may undertake some important railroad work at the East.

Yesterday Mr. Fillmore and his successor, Mr. Herbert, met for the first time. They were introduced by General Manager Kruttschnitt, and after a friendly talk Mr. Fillmore left his office and Herbert took up the work.

**SAYS HIS STEPSON'S TURNED HIM OUT.**

Constable Ed Wofford had considerable trouble yesterday afternoon in taking possession of furniture and a life insurance policy, which L. S. Witterwood is trying to recover from his wife under writ of replevin. The wife and her two sons by a former husband stubbornly resisted and the policy was not secured until after Wofford had broken open a chest.

The policy was for \$2,000, and was turned over to his stepsons by Witterwood upon their promise to provide for him during life. He claims that they forcibly evicted him from his house on Fourth street.

## NEW WAY TO SECURE MONEY.

Sign License Law Is Expected to Bring in at Least \$20,000.

Chief Hodgkins Will See That the Law Is Enforced to the Letter.

Attorneys are applying for copies of the new business sign license ordinance and it is believed that before much money is collected at the rate of \$3 per business for signs or \$5 for sidewalk signs the matter will be tested in the courts, as to its constitutionality.

Mayor Burrows, who approved the new ordinance last week, set the admirable example of being the first to apply for a sign license. But there are scarcely any who have benefited by his example.

License Inspector Newell has not yet finished sending out the notices to business houses and professional men calling their attention to the new ordinance and it will take some days before the full force and effect of the law is felt.

Chief of Police Hodgkins, commenting upon the additional responsibility that will necessarily devolve upon his department, said today: "I am first going to talk this matter over with the License Inspector. There can be no doubt as to its enforcement, and just as soon as all have had ample opportunity to apply for and obtain the regular license the ordinance will be enforced. That's all there is to it."

That the City Council expects to replenish the city treasury to the extent of anywhere from \$10,000 to \$5,000 there seems to be little doubt.

"I expect the city will receive in the neighborhood of \$18,000 per annum from business sign licenses," said Louis Schaffner, President of the City Council, this morning.

Councilman Courtney, chairman of the Finance Committee, estimates between \$15,000 and \$17,000 will be raised, while Mr. Wikson believes the sum will be more like \$25,000. License Inspector Newell, the Treasurer and the Auditor are more conservative and give the figure as \$12,000, but not more.

## OAKLAND HARBOR NEWS NOTES.

Gualala Launched — Preliminary Work on Tidal Canal Begins.

The steam schooner Gualala was launched last evening at 7 o'clock at Dickey's shipyards on the south side of Oakland harbor. The ceremonies were quite simple, consisting of the breaking of a bottle of California wine on her bow by Miss Genereaux, daughter of Captain Genereaux, who will be in command of the new vessel.

It was at first thought that the Gualala would be compelled to lie in the stream, like her companion vessel, the Redwood, until after the machinery was struck, owing to the fact that they could not secure her machinery, but her owners solved the problem by purchasing the disabled steam schooner Laguna. The Gualala today and the boilers and engines of the Laguna will be transferred to her. It is expected that she will be ready to leave upon her maiden voyage to Puget Sound for a cargo of lumber by the end of next week.

The Gualala was built for the coast lumber trade for A. W. Beadle & Co. of San Francisco. She is rather a small steam schooner, being only 125 feet long, with a 30-foot-beam and a 9-foot depth of hold.

**Preliminary Work.**  
Fifty men have been started to work to build a dam just above the High street bridge, as preliminary work on the tidal canal. The dam is necessary to keep the waters from the partially constructed canal from impeding the work. The actual work of digging the canal will not be started until the dam is completed.

It is estimated that the force of men will be increased to 250 when the digging begins. They will work in night and day shifts, so as to avoid any delay, the contractors, the San Francisco Bridge Company, being under bonds to remove 100,000 cubic yards of earth a month.

The earth removed will be taken by the Southern Pacific Company to be used in the fill at West Oakland.

The schooner Marion has finished discharging her cargo at the Puget Sound wharf.

The schooner Broadwater docked at the city's Grove street wharf yesterday and will discharge 80 bales of flax, consigned to the California Flax Mills.

## OPENING OF ELEVENTH STREET IMPRACTICABLE.

Street Superintendent Ott has declared that the scheme for opening East Eleventh street to the city limits is impracticable, because of the cost and the right of way of the Southern Pacific Company. The plan was adopted by various East Oakland improvement clubs, but it appears now that the best and about the only method of providing a good thoroughfare between either side of the lake will be the reconstruction of the Twelfth street dam.
